📍📍 Beaches & Coastal Hiking

Treat yourself to a relaxing "waterfront" stay on the edge of **Mandeh Bay**, located about 2 hours' drive south of **Padang**.

Nicknamed **the "Raja Ampat"** of Sumatra, **the Mandeh region** is sublime, between beaches, heavenly islands of white sand framed by the Bukit Barisan mountain range, its rice fields, and its tropical forest where you can still meet gibbons in the wild, red langurs, deer and other species.

Comfortably installed in comfortable rooms in a charming hotel, which offers pretty bungalows on the beach (with waterfront suites), you will certainly be **in paradise**.

The island of Cubadak welcomes you and will delight you with its charm and its white sand beaches. By diving, freediving or snorkelling, you will be able to explore a very beautiful coral reef, which is located just opposite the beach. An abundant and varied underwater fauna awaits you there. There is also the possibility of a marine canoe trek for the more experienced.
